Salary Rates for Graduate Assistants:

Graduate Students should be budgeted as Graduate Assistants if they are working more than 8 hours/week during the academic Year. Graduate Assistants receive health care and tuition remission.

OSU does not require continuous enrollment in order to graduate, therefore Graduate Students do not have to enroll in classes during the summer in order to work on a grant. However, the summer salary rates for Graduate Students should be the same as the rate used during the Academic Year.

Tuition Remission for Graduate Assistants:

Rates that are established presume nine credit hours for summer session and full time status (12-16 hours) during the academic year. For the summer session, add the additional amount shown for each hour over nine hours. The student must pay any hours above the 16 hours in the summer session. Full tuition remission must be charged for all Graduate Assistant appointments. Tuition remission not allowed by a sponsor is a cost-share expense that must be identified in the budget and on the proposal routing form. Appointment must be between .20 FTE and .49 FTE. GRE tuition must correspond with the terms of the appointment and salary included in the budget period.

Tuition on Fellowships and other non-Graduate Assistant appointments:

Tuition on fellowships must be at a rate appropriate for the person applying (i.e. resident, non-resident, international.) Full tuition remission must be charged unless the following exceptions apply:

- The sponsor does not allow tuition as a direct charge. If so, it must be shown as cost-share.
- The Graduate Assistantship FTE is split between two budget indexes. The tuition should be split in the same proportion.
