

Connection Session on NSF's Coasts and People Initiative

May 13, 2019

Hallie Ford Center 115

3:30-5:00pm – Ignite session

5:00- 6:00pm – reception (wine/beer and food)

Part 1:

Edward Dever	Ocean Observatories Initiative Regional Long Term Time Series for Ocean Research
Julie Risien	Center for Research on Lifelong STEM Learning: Capacities and Research Focus
Haizhong Wang	Agent-based tsunami evacuation model for life safety and resilience
Sarah Gravem	Marine disease outbreaks in the sea
Ana K Spalding	Governance and Policy for a Changing Ocean
Shaozeng Zhang	Mixed-methods for cross-disciplinary collaborative research
Lorenzo Ciannelli	Natural and Human Adaptive Capacity in Marine Coastal Systems
Rick Colwell	Natural Capital on the Pacific Coast: Microbes, Salmon and Humans
Meagan Wengrove	The physics of resiliency

Discussion

Part 2:

Daniel Cox	Convergent research for adaptive and resilient coastal communities
Marta Maldonado	The social relations that make/are the coast
Jihye Park	Monitoring water level change and coastal hazard using GNSS
Martin Storksdieck	Understanding Oregonians functional scientific literacies around land to coast connections
Lisa Price	Knowledge of Nature
Mary Santelmann	Alternative future scenarios for the Oregon coast and coastal communities
Peter Ruggiero	Envisioning a Resilient Oregon Coast: Co-developing alternative futures for adaptation planning and decision-making
Jenna Tilt	Maladaptation or Transformation? Using an equity lens in coastal hazards mitigation research

Discussion

Reception
