

## Fellowship Process – Proposal to Support Disbursement

**Footnotes:**

- 1 – Units who do not have pre-award staff should consult with OSRAA
- 2 – Decision point – if not a fellowship, submit proposal as GA or as general participant support (i.e., REU program, lesser student support, etc.)
- 3 – See [Graduate School Requirements](#). May pursue alternatively funded fellowship option if award/program does not meet criteria.
- 4 – New expanded role of GS, per task force recommendations
- 5 – Proposals typically not required for individual fellowships, are required for training grants; Unit may need to request pending index – minimal proposal required?
- 6 – New version of form and DocuSign template, per task force recommendations
- 7 – Is this a task that could be delegated to GS to review?
