

March 22, 2018

Weekly RFP Funding Opportunities

The Office of Foundation Relations can provide proposal development and writing assistance for all opportunities. Please contact [Elizabeth Ocampo](#), Foundation Relations Coordinator, if interested in applying.

Sponsor	Title and Description	Deadline
Kress Foundation	Art History & Conservation The Kress Foundation supports scholarly projects that promote the appreciation, interpretation, preservation, study and teaching of European art from antiquity to the early 19th century. In 2015, grants ranged from \$10,000 - \$70,000.	04-01-2018
John Templeton Foundation	Academic Cross-Training Fellowship The ACT Fellowship program is intended to equip recently tenured philosophers and theologians with the skills and knowledge needed to study Big Questions that require substantive and high-level engagement with empirical science. Each ACT Fellowship will provide up to \$217,400 for up to 3 contiguous years of support for a systematic and sustained course of study in an empirical science such as physics, psychology, biology, genetics, cognitive science, neuroscience, or sociology. Acceptable courses of study might include a plan to audit undergraduate and graduate-level courses, a plan to spend time in residence at a research lab, or a plan to earn a degree in an empirical science.	04-02-2018 (LOI)
Chan Zuckerberg Initiative	Collaborative Science Awards CZI Collaborative Science Awards are intended for small group interdisciplinary collaborations. These grants are aimed to support innovative, bold, high risk/high impact projects at the interface of basic and disease biology. The scope of these collaborations should focus on foundational science (as opposed to translation and clinical application), aligned with clinical context. The award provides \$350K total costs per year for three years, for a total of \$1.05M (including up to 15% indirect costs).	04-03-2018 (LOI)
Council on Library and Information Resources	Digitizing Hidden Special Collections and Archives Digitizing Hidden Special Collections and Archives: Enabling New Scholarship through Increasing Access to Unique Materials is a national grant competition administered by the Council on Library and Information Resources (CLIR) for digitizing rare and unique content in collecting institutions. Grants range from \$25,000 to \$250,000 for single institutions (12-24 months) and from \$50,000 to \$500,000 for multi-institution collaborations (12-36 months).	04-03-2018
American Chemical Society	Teva Pharmaceuticals Marc A. Goshko Memorial Grant	04-06-2018

Sponsor	Title and Description	Deadline
	<p>Applications for the Teva Pharmaceuticals Scholars grants must propose research in the area of organic chemistry, with potential or direct connections with medicinal or pharmaceutical chemistry, such that the successful results would be of potential practical benefit to the discovery of organic compounds useful as human medicines. Eligible applicants are recently tenured. \$100,000 award per year for three years.</p>	
National Endowment for the Humanities	<p>NEH-Mellon Fellowships for Digital Publication The National Endowment for the Humanities and The Andrew W. Mellon Foundation jointly support individual scholars pursuing interpretive research projects that require digital expression and digital publication. Successful projects will likely incorporate visual, audio, and/or other multimedia materials or flexible reading pathways that could not be included in traditionally published books, as well as an active distribution plan. See Research Office for details.</p>	04-11-2018
American Academy of Cerebral Palsy and Developmental Medicine (AAPDM)	<p>Research Grants The AAPDM has partnered with the Pedal-with-Pete Foundation and the Cerebral Palsy Alliance to fund multiple grants, up to \$25,000 USD each! Areas of research should focus on topics related to cerebral palsy but now will also include research focus areas on other childhood-onset disabilities!</p> <p>Research grant funding supports high-quality, clinical research projects/programs. The award may be used to fund planning for a project or to complete a small research project of high impact in any area relevant to the AAPDM's mission. The successful applicant will have a solid track record in childhood-onset disability research.</p> <p>The Principal Investigator on the grant must be an AAPDM member in good standing. Only one grant application per member will be considered in a given budget year.</p>	04-12-2018
American Federation for Aging Research	<p>The New Investigator Awards in Alzheimer's Disease Funded by The Rosalinde and Arthur Gilbert Foundation, the major goal of this partnership program is to support important research in areas in which more scientific investigation is needed to improve the prevention, diagnosis, and treatment of Alzheimer's disease. The program also serves to encourage junior investigators in the United States and Israel to pursue research and academic careers in the neurosciences, and Alzheimer's disease in particular. Up to three one- to two-year awards of \$100,000 each will be awarded.</p>	04-13-2018 (LOI)
Searle Freedom Trust	<p>Public Policy Research Supports domestic public policy research. The Searle Freedom Trust was founded to foster research and education on public policy issues that affect individual freedom and economic liberty. Through its grant-making, the foundation seeks to develop solutions to the country's most important and challenging domestic policy issues. Areas of particular interest include: Economic Policy, Regulation, Law & Litigation, Environment & Health, Education, Film & Media, Social Welfare, and Philanthropy.</p>	04-16-2018
Chan Zuckerberg Initiative	<p>Ben Barres Early Career Acceleration Awards CZI Ben Barres Early Career Acceleration Awards are intended for early career academic investigators, with an emphasis on those who are new to the field of neurodegeneration. CZI</p>	04-17-2018

Sponsor	Title and Description	Deadline
	<p>seeks to empower investigators to pursue bold ideas and to take risks within a supportive and collaborative environment. The award provides \$500K per year for five years, for a total of \$2.5M (including up to 15% indirect costs).</p>	
<p>Aetna Foundation</p>	<p>2018 Cultivating Healthy Communities Grant Program</p> <p>Over the past three years, we have expanded our programming beyond its past focus on physical activity, urban farms, and local food. We're still committed to these areas, and they'll be considered under this RFP. But our program as a whole aims to have broader impact and reach more spaces in the community. That's why we are inviting projects that address issues in the following domains: Built Environment, Community Safety, Environmental Exposures, Healthy Behaviors, and Social/Economic Factors. We are especially interested in projects that advance resident- or youth-led initiatives, and projects that seek to influence and strengthen local policies that impact residents' health.</p> <p>Applicants can request a total grant award between \$50,000 and \$100,000 for the entire project period. Projects can last between 18 and 24 months, and must start between August 20, 2018 and October 15, 2018.</p> <p>One application each will be allowed from OSU, the OSU Foundation, the Agricultural Research Foundation, and the Oregon 4-H Foundation.</p>	<p>04-18-2018 (Stage 1 application)</p>
<p>Foundation for Food and Agriculture Research</p>	<p>Seeding Solutions</p> <p>Support innovative and potentially transformative research focused in seven Challenge Areas. To be considered, proposals must be transformative research that addresses and provides solutions to an intractable problem and/or accelerates innovation in Food Waste Loss, Protein Challenge, Water Scarcity, Innovation Pathway to Sustainability, Healthy Soils Thriving Farms, Urban Food Systems, or Making "My Plate" Your Plate.</p> <p>FFAR will award each applicant up to \$1 million to projects lasting 12 to 60 months. A minimum one-to-one funding match from non-federal sources is required.</p>	<p>04-18-2018 (LOI)</p>
<p>Kresge Foundation</p>	<p>Emerging Leaders in Public Health</p> <p>Emerging Leaders in Public Health is an ongoing leadership development initiative aimed at helping current and future local public health department leaders advance innovative models, which improve their organizations and position them for new opportunities in today's changing health care environment.</p> <p>Applying for the Emerging Leaders in Public Health initiative is a two-step process. To receive a unique online application link, please first complete the application request form.</p>	<p>04-25-2018 (Application request)</p>
<p>Pfizer, Inc.</p>	<p>2018 ASPIRE Breast Cancer Research Awards</p> <p>Pfizer invites investigators to apply for the 2018 ASPIRE Breast Cancer Research Awards program through submission of innovative clinical research proposals designed to accomplish the mission of advancing knowledge of select Pfizer compounds in the treatment and disease management of breast cancer.</p>	<p>04-27-2018</p>

Sponsor	Title and Description	Deadline
	2018 ASPIRE Breast Cancer Research Awards intend to fund 4 to 6 clinical studies within research scope, for a total of approximately \$4,000,000.	
American Society for Hematology	ASH Bridge Grants ASH is accepting proposals from hematologists whose research would not otherwise be accomplished due to cuts in NIH funding. The program will provide at least thirty one-year awards annually of \$150,000 each to ASH members who have applied for an NIH R01 grant or equivalent but were denied funding due to budget cuts. Grants will support projects in basic, translational, patient-oriented, or outcomes-based research.	05-01-2018
American Society of Hematology	ASH Scholar Awards ASH Scholar Awards are limited to a maximum of \$100,000 for fellow scholars and \$150,000 for junior faculty scholars over a two- to three-year period, with an annual maximum of \$50,000 for fellows and \$75,000 for junior faculty. Research should fall into one of the following categories: Basic Research, Translational Research, or Clinical Research (Patient-Oriented or Outcomes Based). For many researchers, the period between completion of training and the establishment of one's independent career can be a perilous and uncertain time. Since 1985, the ASH Scholar Awards have helped ease this difficult transition by providing partial salary or other support during that critical period required for completion of training and achievement of status as an independent investigator.	05-01-2018 (LOI)
Research Corporation for Science Advancement	Cottrell Scholar Awards The Cottrell Scholar Award (CSA) is available to early career faculty at US research universities and primarily undergraduate institutions. Eligible applicants are tenure-track faculty members whose primary appointment is in a department of astronomy, chemistry or physics that offers, the minimum, a bachelor's degree. Cottrell Scholar Awards are for three year projects in the amount of \$100,000 for the entire project.	05-01-2018 (LOI)
Retirement Research Foundation	Responsive Grants The Retirement Research Foundation funds research projects that have a regional or national impact on older Americans. Of particular interest are projects that seek causes and solutions to significant problems facing older adults, ages 65 and older, through support of applied and policy research for which federal funding is not available	05-01-2018
American Association for Cancer Research	Lung Cancer Innovation Science Grants The AACR-Johnson & Johnson Lung Cancer Innovation Science Grants represent a joint effort to address this need by promoting and supporting pioneering cancer research. Proposals should focus on understanding the behaviors that lead to chronic exposures to respiratory carcinogens and how these behaviors can be modified; how chronic exposures produce cellular/genomic damage and how these can be ameliorated; deciphering the types of inflammation that underlie the carcinogenic process; understanding the alterations in innate and adaptive immunity that create an immune-permissive microenvironment; and changes in the pulmonary microbiome that may contribute to carcinogenesis. Proposals that characterize premalignant lesions or that substantially improve the detection of lung cancer at more curable stages will also be prioritized.	05-02-2018

Sponsor	Title and Description	Deadline
	<p>This project must be implemented by a multi-institutional team, composed of Principal Investigators from at least two, but no more than three, different institutions. The Grant will provide \$1.5 million in funding for direct and indirect expenses related to each research project over a three-year timeframe.</p>	
Cystic Fibrosis Foundation	<p>Pilot and Feasibility Awards</p> <p>These awards are for developing and testing new hypotheses and/or new methods, and supporting promising new investigators as they establish themselves in research areas relevant to cystic fibrosis. Information derived from such studies will hopefully lead to submission to other funding agencies, such as the National Institutes of Health.</p> <p>Proposed work must be hypothesis-driven and must reflect innovative approaches to critical questions in CF research.</p> <p>Support may be requested for \$50,000 per year (plus 8 percent for indirect costs) for up to two years.</p>	05-07-2018
Cystic Fibrosis Foundation	<p>Postdoctoral Research Fellowship Award</p> <p>Postdoctoral research fellowship awards are offered for support of postdoctoral research training related to cystic fibrosis. Preference will be given to recent graduates and those just beginning their research careers.</p> <p>Salary support of up to \$50,000 (plus \$8,850 fringe) is available for the first year of the award and \$52,000 (plus \$9,200 fringe) for the second year of the award. Research and travel expenses of \$4,250 per year are available. Indirect costs are not allowed.</p>	05-07-2018
Cystic Fibrosis Foundation	<p>Research Grants</p> <p>Research grants are intended to support basic science research. Studies may be carried out at the subcellular, cellular, animal, or patient levels. To be considered, proposals must be hypothesis-driven and provide sufficient preliminary data to justify Cystic Fibrosis Foundation support.</p> <p>Support is available for \$125,000 per year (plus 8 percent for indirect costs) for up to two years, at which time a grant may be competitively renewed for additional funding.</p>	05-07-2018
Pfizer, Inc.	<p>2018 Global ASPIRE Transthyretin (TTR) Amyloidosis Competitive Research Grant Awards</p> <p>Pfizer invites junior investigators with a terminal degree (MD and/or PhD and/or PharmD or equivalent) who are developing their research careers in TTR Amyloidosis to apply for the 2018 GLOBAL ASPIRE Awards in TTR amyloidosis through submission of innovative research proposals designed to enhance our ability to understand the epidemiology, basic science and early diagnosis and treatment of patients with TTR amyloidosis.</p> <p>Pfizer is funding research awards ranging from \$25,000 USD to a maximum of \$50,000 USD each.</p>	05-14-2018
Friedrich's Ataxia Research Alliance	<p>Kyle Bryant Translational Research Award</p> <p>Kyle Brant Translational Research Award must target one or more of the following:</p>	05-15-2018 (LOI)

Sponsor	Title and Description	Deadline
	<p>1) Identification of biomarkers for FA that will elucidate disease variability, severity, and prognosis; facilitate drug screening, and/or optimize selection of patients and clinical endpoints for clinical trials;</p> <p>2) Development of tools and technologies that can (a) be directly used for therapy development; (b) overcome existing obstacles to treatment and (c) be directly applied to, or adapted for, delivery of potential therapeutics;</p> <p>3) Pre-clinical development and testing of potential therapeutics, biologics, and devices in cells and animals;</p> <p>4) Clinical studies of patient outcome measures, potential interventions, or devices.</p> <p>The Friedrich's Ataxia Research Alliance focuses on FA research. The Kyle Bryant Translational Research Award provides \$250,000 per year for 1 or 2 years.</p>	
Friedrich's Ataxia Research Alliance	<p>Bronya J. Keats Award for International Collaboration in Research on FA</p> <p>FARA accepts LOIs focusing on FA research that relies on international collaboration among investigators in at least two different countries. Special consideration will be given to proposals that bring new scientists to the FA community. The rationale for the collaboration needs to be convincing and must clearly demonstrate that the research goals could not be achieved by just one of the participating groups and that the synergy among the groups is essential for the success of the project.</p> <p>The Friedrich's Ataxia Research Alliance focuses on FA research. The Bronya J. Keats International Research Collaboration Award provides \$200,000 per year for 1 or 2 years. See website for specific research priorities.</p>	05-15-2018 (LOI)
Gerber Foundation	<p>Research Grants</p> <p>The Foundation's mission focuses on infants and young children. Accordingly, priority is given to projects that improve the nutrition, care and development of infants and young children from the first year before birth to three years of age.</p> <p>The Foundation is particularly interested in fresh approaches to solving common, everyday problems or emerging issues within our defined focus area. Projects should focus on issues faced by care providers that, when implemented, will improve the health, nutrition and/or developmental outcomes for infants and young children. The board is particularly looking for practical solutions that can be easily and rapidly implemented on a broad scale with a predictable time frame to clinical application.</p>	05-15-2018 (Concept paper)
Medical Research Foundation	<p>Emergency Interim Support Grant</p> <p>Through this award, the MRF supports established investigators who are in need of bridge funding. The grant provides funding for research programs that have lost national grant funding, enabling investigators to develop data supporting application renewals. The application must contain a clear explanation of current grant funding and the status of grants in revision.</p> <p>Maximum grant award: \$40,000</p>	05-15-2018
Medical Research Foundation	<p>New Investigator Grant</p>	05-15-2018

Sponsor	Title and Description	Deadline
	<p>Through this award, the MRF supports promising new investigators in biomedical research. Principal investigators must be at the beginning of an independent career with a faculty position at one of Oregon's colleges or universities. A letter of support from the department chair or the institute director must accompany each application describing the independence of the principal investigator and the commitment of the unit to that investigator and their research program.</p> <p>Maximum grant award: \$40,000</p>	
<p>Alex's Lemonade Stand Foundation</p>	<p>‘A’ Award Grant</p> <p>The ‘A’ Award is a four-year grant designed for the early independent career scientist who wants to establish a career in pediatric oncology research. The ideal applicant has an original project that is not currently being funded. Demonstration of a future commitment to pediatric cancer investigation as well as institutional support for the career development of the investigator are critical components of a successful application. The Award amount is now a maximum of \$200,000 per year.</p> <p>2018 guidelines not yet available. 2017 guidelines attached for reference.</p>	<p>05-21-2018</p>
<p>Alex's Lemonade Stand Foundation</p>	<p>Reach Grants</p> <p>Reach Grants are designed to move hypothesis-driven research into the clinic. The \$250,000, two-year grant is intended to fund developmental therapeutic studies in the late stage of preclinical testing. A successful application will identify an unmet clinical need relevant to the care of pediatric patients with cancer and describe how the work performed will allow for the translation to the clinic within two years of completion. A plan and timeline for clinical testing and trial implementation is expected. This grant does not fund clinical trial expenses.</p> <p>2018 guidelines not yet available. 2017 guidelines attached for reference.</p>	<p>05-21-2018</p>
<p>Huntington’s Disease Society of America</p>	<p>HD Human Biology Project</p> <p>The Huntington’s Disease Society of America (HDSA) has adopted a patient-centric research strategy to enable the critical HD projects to push the field closer to meeting the goal of identifying effective therapies to slow the progression or onset of HD. The Human Biology Project was launched in 2013 with the goal of fostering innovative research at the HDSA Centers of Excellence to better understanding the biology of Huntington’s disease as it occurs in humans.</p> <p>This award is a one or two year grant mechanism to provide support for young scientists to work collaboratively with HD Clinics from around the world. Awards up to \$75,000/year (\$50,000 salary support and \$25,000 research budget) are available.</p>	<p>05-22-2018 (LOI)</p>
<p>American Kennel Club Canine Health Foundation</p>	<p>2019 Small Animal Theriogenology Residency Program</p> <p>The American Kennel Club (AKC) and AKC Canine Health Foundation (CHF), in collaboration with the Theriogenology Foundation (TF), continue their commitment to invest in the training of future veterinary specialists in the medical and surgical management, treatment, and research of canine reproductive health and disease and clinical genetics to ensure the health and well-being of purebred and purpose-bred dogs.</p>	<p>05-24-2018</p>

Sponsor	Title and Description	Deadline
	<p>CHF is seeking applications from United States schools of veterinary medicine to support a resident in their small animal theriogenology programs. Programs offering parallel training in canine clinical genetics will be prioritized for selection for funding.</p> <p>The total allowable budget for a residency application is \$100,000 (includes 8% maximum indirect costs)</p>	
Multiple Myeloma Research Foundation	<p>Research Fellow Awards</p> <p>The Multiple Myeloma Research Foundation (MMRF) seeks proposals for the MMRF 2018 Research Fellow Award Program, an initiative supporting researchers at the post-doctorate/medical fellow or junior faculty levels working under the supervision or guidance of a research mentor in the multiple myeloma field. The goal of this initiative is to help support young investigators to begin their studies in the field of multiple myeloma while advancing the understanding of myeloma disease biology, treatment and drug resistance. Proposals may request up to \$75,000 for one year.</p>	05-25-2018
Caplan Foundation for Early Childhood	<p>Childhood Research and Education Grants</p> <p>The Caplan Foundation for Early Childhood is an incubator of promising research and development projects that appear likely to improve the welfare of young children, from infancy through 7 years, in the United States. Welfare is broadly defined to include physical and mental health, safety, nutrition, education, play, familial support, acculturation, societal integration and childcare.</p> <p>Grants are only made if a successful project outcome will likely be of significant interest to other professionals, within the grantee's field of endeavor, and would have a direct benefit and potential national application. The Foundation's goal is to provide seed money to implement those imaginative proposals that exhibit the greatest chance of improving the lives of young children, on a national scale. Awards generally range from \$40,000 to \$70,000.</p>	05-31-2018 (LOI)
Pfizer, Inc.	<p>2018 Awards in Gene and anti-TFPI Therapies in Hemophilia</p> <p>Ongoing basic science research and clinical research are critical to deepen understanding of disease mechanisms and to ensure advancement of management strategies for hemophilia and related comorbidities. In an era of increased competition for research funding, the 2018 ASPIRE Gene and anti-TFPI Therapies in Hemophilia Global Research Awards Program is designed to support laboratory and clinical research in pathogenesis, complications, management, and clinical outcomes of these therapies for hemophilia.</p> <p>Project duration should be 1-2 years and should be approximately \$125,000/year, inclusive of overhead costs (capped at 28%).</p>	05-31-2018
Environmental Research & Education Foundation	<p>Research Grants</p> <p>The EREF is the only private, grant making institution with a national and international scope whose sole mission is to support solid waste research and education initiatives. Our research grants program is led by our Research Council, a body of volunteers consisting of technical experts in industry, academia and consulting.</p>	06-01-2018 (Pre-proposal)

Sponsor	Title and Description	Deadline
	<p>Previously awarded grants have ranged from \$15,000 to over \$500,000 with the average grant amount in recent years being \$160,000. Typical project durations are about 2 years. It should be noted that proposed research in excess of \$300,000 or longer than 3 years should contain sufficient details that justify the need for the higher than average amount requested and longer project duration.</p>	
United Engineering Foundation	<p>Engineering Education Grants</p> <p>The United Engineering Foundation advances the engineering arts and sciences for the welfare of humanity. It supports engineering and education by, among other means, making grants.</p> <p>UEF provides funding to proposals and programs whose chief purpose is to advance engineering for the welfare of humanity. Proposals must be consistent with the mission of UEF and priorities for giving, which include programs that focus on the following areas:</p> <ol style="list-style-type: none"> 1. Diversity 2. Kindergarten - 12th Grade Education 3. Ethics and Leadership in Continuing Education <p>Technical research proposals and proposals by individuals are seldom accepted. The UEF gives between 5-10 grants per year totaling nearly \$800,000. Proposals are accepted only from U.S. based organizations classified by the Internal Revenue Service as having 501(c)(3) status.</p>	06-01-2018 (Concept paper)
Children's Cardiomyopathy Foundation	<p>Research Grants</p> <p>Accepting Letters of Intent from investigators for basic science, clinical, population/epidemiologic, and translational research on cardiomyopathies affecting children age 18 and younger.</p> <p>Grants of up to \$50,000 will be awarded to studies focused on the causes, diagnosis, or treatment of dilated, hypertrophic, restrictive, arrhythmogenic right ventricular, and left ventricular non-compaction cardiomyopathy. The grants are designed to provide seed funding to investigators for the testing of initial hypotheses and collecting of preliminary data to help secure long-term funding by the National Institutes of Health and other major granting institutions.</p>	06-13-2018 (LOI)
Kresge Foundation	<p>Arts & Culture</p> <p>We welcome proposals from organizations that:</p> <ul style="list-style-type: none"> • Infuse creativity (arts, culture and community-engaged design) into comprehensive community development and urban planning practices. • Build on a community's assets and distinctive attributes, recognizing and highlighting narratives of place. • Are cross-sector and cross-disciplinary – collaborations of multiple partners from different sectors (public/private) and disciplines (arts, health, environment, human services). • Take root in economically distressed communities and ensures that residents with low incomes contribute to, engage in, benefit from, and are empowered by activities. 	Rolling
Kresge Foundation	Human Services	Rolling

Sponsor	Title and Description	Deadline
	<p>Advancing innovative, multi-sectoral policy solutions in human services—we welcome proposals from organizations that:</p> <ul style="list-style-type: none"> • Advocate for policies that foster greater collaboration among sectors and high impact approaches to human services • Clearly articulate a community and audience engagement strategy • Demonstrate application of research on outcomes based policy driven approaches • Implement a highly targeted evaluation that can expand integrated, high impact practices in the human services sector 	
<p>Robert Wood Johnson Foundation</p>	<p>Evidence for Action: Investigator-Initiated Research to Build a Culture of Health</p> <p>Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.</p>	<p>Rolling</p>
<p>Robert Wood Johnson Foundation</p>	<p>Pioneering Ideas</p> <p>The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible.</p> <p>While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.</p>	<p>Rolling</p>
<p>Simons Foundation</p>	<p>Targeted Grants in Mathematics and Physical Sciences</p> <p>The Targeted Grant in MPS program provides funding for up to five years. The funding level and duration is flexible and should be appropriate based on the type of support requested in the proposal. The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis.</p>	<p>Rolling (LOI)</p>
<p>Wallace Global Fund</p>	<p>Transformative Change Grants</p> <p>The Wallace Global Fund supports activities and movements that are global or national in scope. We will consider significant local or regional initiatives with the potential to leverage broader national or global impact. Proposals can be for either core or project-specific support. Example topics include:</p> <ul style="list-style-type: none"> • Challenging corporate power • Defending and renewing democracy • Protecting the environment • Promoting truth and creative freedom in media 	<p>Rolling (LOI)</p>

	<ul style="list-style-type: none"> Advancing women's human rights and empowerment <p>WGF does not fund purchase of land, capital construction, profit-making businesses, debt reduction, endowment campaigns, fundraising drives/events, or scholarships, tuition assistance or other forms of personal financial aid.</p> <p>Applicants based in the United States must be registered 501(c)(3) non-profit organizations.</p>	
Featured Opportunities		
Organization for Autism Research	<p>Applied Research Competition</p> <p>The annual program aims to promote innovative research that directly supports the autism community by expanding the body of knowledge related to autism intervention and treatment, producing practical and objective results, and providing outcomes that enhance the quality of life for persons with autism and their families.</p> <p>Preference will be given to the analysis, evaluation, or comparison of current models of assessment, intervention, or systems of service delivery, including policy analysis; applied aspects of educational, behavioral, or social/communicative intervention; effective intervention across the lifespan for individuals considered to be severely impacted by autism; adult issues such as continuing education, employment, residential supports, sexuality instruction, quality-of-life determinants, and "later intervention"; and issues related to family support, social and community integration, assessment and intervention with challenging behavior, and the use of technology in support of learners with ASD.</p> <p>In 2018, OAR will award grants of up to \$30,000. Studies can range in duration from one to two years.</p>	03-26-2018 (Pre-proposals)
Breakthrough Prize Foundation	<p>Breakthrough Prize in Fundamental Physics</p> <p>One 2019 Breakthrough Prize in Fundamental Physics (\$3 million prize) will be awarded to an individual(s) who has made profound contributions to human knowledge. This category is open to all physicists -- theoretical, mathematical, and experimental -- working on the deepest mysteries of the universe. The prize can be shared among any number of scientists. Nominations are also being taken for the New Horizons in Physics Prize, which will include up to three \$100,000 awards for junior researchers who have already produced important work in their fields.</p>	04-30-2018
Breakthrough Prize Foundation	<p>Breakthrough Prize in Life Science</p> <p>Up to four 2019 Breakthrough Prizes in Life Sciences (\$3 million each) will be awarded to individuals who have made transformative advances in understanding living systems and extending human life.</p>	04-30-2018
Breakthrough Prize Foundation	<p>Breakthrough Prize in Mathematics</p> <p>One 2019 Breakthrough Prize in Mathematics (\$3 million) will be awarded to an individual who has made outstanding contributions to the field of mathematics. In addition, up to three \$100,000 New Horizons in Mathematics Prizes will be presented to early career mathematicians who have already produced important work in their fields.</p>	04-30-2018

Davis Phinney Foundation	<p>Parkinson's Research</p> <p>The Davis Phinney Foundation is committed to funding the most promising research aimed at therapeutics and lifestyle choices that promote living well with Parkinson's disease, today and every day.</p> <p>To that end, the foundation will award up to \$200,000 in support of innovative research focused on links between exercise and Parkinson's disease. This topic can be interpreted to include a range of investigations (e.g., type, duration, intensity, or effects on speech, falls, non-motor symptoms, etc.).</p>	03-26-2018 (LOI)
American Heart Association	<p>American Heart Association and Amazon Web Services 2.0 Data Grant Portfolio: Democratizing Data</p> <p>Purpose: To open rich orthogonal datasets and analyze these datasets using state-of-the-art technology available on the American Heart Association (AHA) Precision Medicine Platform. The datasets must include under-represented minorities. Examples of the types of applicable datasets include but are not limited to heart failure, stroke, hypertension, socio-economic data, behavioral modifications and interventions, lifestyle, nutrition and exercise.</p> <p>Example topics for applicants include but are not limited to:</p> <ul style="list-style-type: none"> • Analyzing two or more datasets related to lifestyle, nutrition and hypertension to gain a better understanding of increased cardiovascular risk for specific populations. 	03-29-2018

Sponsor	Title and Description	Deadline
	<ul style="list-style-type: none"> Design, implement and validate a tool(s) or process to make health related data widely accessible, by using under-represented datasets <p>Award Amount:</p> <ul style="list-style-type: none"> \$100,000/year, including 10% institutional indirect costs (\$200,000 cash total) An additional Amazon Web Services (AWS) service credit for use on the AHA Precision Medicine Platform will be given for computational storage and analysis up to \$20,000/year. 	
American Heart Association	<p>Artificial Intelligence and Machine Learning Training Grants</p> <p>Purpose: To train student researchers (undergraduate, graduate or pre/post-doctoral) in testing and refining artificial intelligence and machine learning algorithms using learning health care system data and/or multiple longitudinal data sources to improve our understanding of all data related to precision medicine.</p> <p>Data source examples include but are not limited to images, electronic health records, wearables.</p> <p>Award Amount:</p> <ul style="list-style-type: none"> \$50,000/year (\$100,000 cash total) An additional Amazon Web Services (AWS) service credit for use on the AHA Precision Medicine Platform will be given for computational storage and analysis up to \$50,000/year. 	03-29-2018
Vera and Joseph Dresner Foundation	<p>Myelodysplastic Syndromes Research Fund</p> <p>The foundation's MDS Research Fund (MDSRF) seeks to advance the understanding and treatment of Myelodysplastic Syndromes (MDS) and related blood disorders and expands the foundation's investments in support of cutting-edge basic, translational, and clinical MDS research with the potential to establish future standards of care and, ultimately, a cure.</p> <p>The foundation will consider proposals in two categories from individuals at university, college, hospital, or laboratory institutions for support of research in MDS or related disorders:</p> <p>Early Career Awards of up to \$125,000 per year over two years will be awarded to eligible investigators who are less than five years from completion of their fellowship training or postdoctoral program and/or have not previously been awarded an RO1 grant or its equivalent.</p> <p>Established Investigator Awards of up to \$250,000 per year over two years will be awarded to eligible investigators who are five or more years from completion of their fellowship training or postdoctoral program, or to applicants who have previously received an Early Career Award from the foundation or an RO1 grant or its equivalent.</p>	03-30-2018 (LOI)
B*CURED	<p>Brain Cancer Research</p> <p>B*CURED's primary goal is to fund innovative brain cancer research that helps end brain cancer.</p>	04-01-2018

Sponsor	Title and Description	Deadline
	<p>To that end, the foundation is accepting applications for is 2018 Brain Cancer Research Investigator Grant, which is presented annually to a clinical doctor or research scientist whose primary focus is brain cancer research.</p> <p>Grants of up to \$50,000 will be awarded over twelve months to support clinical and translational research projects directly related to the field of brain cancer. Projects for adult and pediatric brain cancer research will be considered.</p> <p>To be eligible, applicants must be a faculty member at a research institution in North America who is undertaking clinical or translational research with the intention of applying for R01 NIH funding or the equivalent within five years; or undertaking innovative research to bridge from bench to animal research or to acquire preclinical data from animal models.</p>	
PhRMA Foundation	<p>Regulatory Science Fellowship Award</p> <p>This award provides stipend support for a full year of on-site industry experience, working within a global pharmaceutical company's regulatory affairs department.</p> <p>Regulatory Science is the science of developing new tools, standards, and approaches to assess the safety, efficacy, quality, and performance of all FDA-regulated products. FDA-regulated products include medical products (i.e., drugs, devices, biologics), food, and tobacco products. This program will support Fellows focusing on medicine and medical products exclusively.</p> <p>Funding: Paid stipend of \$70,000 for one year.</p>	04-01-2018
PhRMA Foundation	<p>Research Awards</p> <p>Value assessment in health care comprises a broad set of methods to synthesize and evaluate the relative benefits and costs of health care interventions. The goal of value assessment is to assist stakeholders, including patients, providers and payers, in making informed decisions to improve health and care efficiency. These assessments are conducted using varied methodological approaches to synthesize data from various sources to guide individual or population-level decisions. For greatest impact, these methods should offer opportunities to incorporate patient characteristics and their preferences to guide treatment decisions.</p> <p>However, there are a number of limitations of the data sources, methodologies and measures applied in value assessment. Additionally, existing data sources do not allow for complete capture of patient-level information or preferred outcomes.</p> <p>The PhRMA Foundation is seeking proposals that identify and address challenges in research conducted to assess the value of medicines and health care services.</p> <p>Funding: Varying levels, up to \$100,000, for a one-year period.</p>	04-01-2018 (LOI)
When Everyone Survives Foundation	<p>Leukemia Research</p> <p>The When Everyone Survives Foundation was founded to advance cures and treatment for leukemia through support for innovative research.</p>	04-01-2018

Sponsor	Title and Description	Deadline
	<p>To that end, the foundation has issued its 2018 Request for Proposals for leukemia research. One-year grants of up to \$50,000 will be awarded in support of innovative laboratory, translational, or clinical research related to acute leukemia. Renewal of initial research support may be considered for one or more additional years based on productivity.</p> <p>New and established investigators are eligible to apply.</p>	
American Cancer Society	<p>Institutional Research Grants Institutional Research Grants (IRGs) are block grants given to institutions as "seed money" for the initiation of projects by promising junior investigators. They average \$90,000 a year for 3 years.</p>	04-02-2018
American Cancer Society	<p>Mentored Research Scholar Grant Provides support for mentored research and training to full-time junior faculty, typically within the initial four years of their first independent appointment. The goal is for these beginning investigators to become independent researchers as either clinician scientists or cancer control and prevention researchers. Awards are for up to five years and for up to \$135,000 per year (direct costs), plus 8% allowable indirect costs. A maximum of \$10,000 per year for the mentor(s) (regardless of the number of mentors) is included in the \$135,000.</p> <p>NOTE: This mechanism is being phased out. Only resubmissions will be reviewed in 2018.</p>	04-02-2018
American Cancer Society	<p>Postdoctoral Fellowships This award is to support the training of researchers who have received a doctoral degree to provide initial funding leading to an independent career in cancer research (including basic, preclinical, clinical, cancer control, psychosocial, behavioral, epidemiology, health services and health policy research). Awards may be for three years with progressive stipends of \$48,000, \$50,000, and \$52,000 per year, plus a \$4,000 per year fellowship allowance (an additional \$1,500 is added to the fellowship allowance in the last year to attend the ACS Postdoctoral Fellows Symposium or a domestic scientific meeting).</p>	04-02-2018
American Cancer Society	<p>Research Scholar Grants Research Scholar Grants (RSGs) are awards are for up to 4 years and for up to \$165,000 per year for direct costs, plus 20% allowable indirect costs. Independent investigators in the first 6 years of an independent research career or faculty appointment are eligible to apply.</p>	04-02-2018
American Cancer Society	<p>The Role of Health Policy and Health Insurance in Improving Access to and Performance of Cancer Prevention, Early Detection, and Treatment Services The American Cancer Society is accepting proposals for research projects with the potential to generate new knowledge of the effects of the United States healthcare system structure and the role of insurance in both access to and the outcomes of cancer screening, early detection, and treatment services.</p> <p>ACS is keenly interested in supporting rapid learning research on the effects of health policy changes on patients, providers, and health systems. This includes but is not limited to facilitators</p>	04-02-2018

Sponsor	Title and Description	Deadline
	<p>and barriers to care; unintended consequences; differential experiences and outcomes of patients seeking or receiving care; best practice models for quality care; and economic impact.</p> <p>Awards will not exceed \$200,000 per year (direct costs) for up to four years.</p>	
Cancer Research Institute	<p>CRI Postdoctoral Fellowships</p> <p>The CRI Irvington Postdoctoral Fellowship Program is CRI's longest-standing continuous program. Postdoctoral fellowships provide support to fund and train young immunologists and cancer immunologists at top universities and research centers around the world.</p> <p>Fellows work and continue their training under the guidance of a world-renowned immunologist, who mentors the fellow and prepares him or her for a productive and successful career in cancer immunology.</p> <p>Fellows receive up to \$175,500 over three years to cover the cost of salary, insurance, and other research-related expenses, such as travel to conferences and meetings.</p>	04-02-2018
Pfizer, Inc.	<p>Addressing Patient Centered Healthcare with Biosimilars</p> <p>The intent of this Call for Grant Application (CGA) is to support educational programs that seek to improve healthcare professional and patient knowledge of disease management with biosimilars.</p> <p>Individual projects requesting up to \$250,000 will be considered.</p>	04-02-2018
National MS Society	<p>Pilot Research Grants</p> <p>The National Multiple Sclerosis Society mobilizes people and resources to drive research for a cure and address the challenges of everyone affected by MS.</p> <p>To that end, the society is accepting applications for its Pilot Grant Program, which funds high-risk pilots designed to quickly test novel ideas with the potential to advance efforts to stop MS progression, restore function, and improve quality of life for individuals with MS and their families. The program supports fundamental as well as applied studies, non-clinical or clinical in nature, including projects in patient management, care, and rehabilitation.</p> <p>One-year grants of up to \$40,000 will be awarded to test innovative, cutting-edge ideas or untested methods, and/or to gather sufficient preliminary data to apply for longer-term funding.</p>	04-09-2018
PGE Foundation	<p>Arts Education Programs</p> <p>The PGE Foundation, the charitable arm of Portland General Electric, is accepting applications from arts education and cultural outreach programs that promote innovation and creativity while also enhancing literacy and math aptitude. Access to arts experiences for young people, particularly underserved students and communities of color, will also be considered.</p> <p>Grant amounts will be determined on a project-by-project basis.</p>	04-12-2018
Alzheimer's Drug Discovery Foundation	<p>Drug Discovery Program</p>	04-13-2018 (LOI)

Sponsor	Title and Description	Deadline
	<p>The Alzheimer's Drug Discovery Foundation (ADDF) has long recognized the need to bridge the translational funding gap between early-stage drug discovery and clinical development for Alzheimer's disease, related dementias, and cognitive aging by supporting promising therapeutic approaches. The ADDF's Drug Discovery RFP focuses on supporting programs that aim to:</p> <ol style="list-style-type: none"> 1. Advance novel lead molecules to the clinical candidate selection stage (defined as compounds suitable for IND-enabling studies); or 2. Build preclinical evidence in relevant animal models for repurposed/repositioned drugs <p>Average award is \$150,000-\$600,000 based on stage and scope of research. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged.</p>	
<p>Angelman Syndrome Foundation</p>	<p>Research Projects</p> <p>The Angelman Syndrome Foundation advances awareness and treatment of Angelman syndrome, a neurodevelopmental disorder caused by a deficiency of the ubiquitin protein ligase UBE3A in the brain. The foundation advances this mission through education, research, and support for individuals with Angelman syndrome, their families, and other concerned parties.</p> <p>As part of this mission, the foundation is accepting proposals for projects in the preclinical, translational, and clinical research areas that investigate any or all aspects of Angelman syndrome. Priority will be given to projects focused on testing new ideas about the pathogenesis and therapeutics of Angelman syndrome, translational research, and clinical research studies. Of particular interest to ASF are studies related to communication, behavioral issues, and identification of issues and treatments that impact the daily life of people with Angelman syndrome and their families.</p> <p>One- or two-year grants of up to \$100,000 a year will be awarded, and researchers from any country are encouraged to apply.</p>	<p>04-15-2018</p>
<p>Whitehall Foundation</p>	<p>Bioscience Research</p> <p>The Whitehall Foundation assists scholarly research in the life sciences through its research grants and grants-in-aid programs. It is the foundation's policy to support dynamic areas of basic biological research that are not heavily supported by federal agencies or other foundations with a specialized mission. The foundation emphasizes the support of young scientists at the beginning of their careers and productive senior scientists who wish to move into new fields of interest.</p> <ol style="list-style-type: none"> 1. Research: Research grants of up to \$225,000 over three years will be awarded to established scientists of all ages working at an accredited institution in the United States. Grants will not be awarded to investigators who have already received, or expect to receive, substantial support from other sources, even if it is for an unrelated purpose. 2. Grants-in-Aid: One-year grants of up to \$30,000 will be awarded to researchers at the assistant-professor level who experience difficulty in competing for research funds 	<p>04-15-2018 (LOI)</p>

Sponsor	Title and Description	Deadline
	because they have not yet become firmly established. Grants-in-Aid can also be made to senior scientists.	
American Diabetes Association	<p>Innovative Basic Science</p> <p>These awards support basic research with novel and innovative hypotheses in any area relevant to the etiology or pathophysiology of diabetes and its complications that holds significant promise for advancing the prevention, cure or treatment of diabetes. Applications proposing high-risk projects with the potential for high-impact results are encouraged, as are studies that may not be sufficiently developed for traditional funding sources.</p> <p>Awards provide up to \$115,000 per year for up to three years, including indirect costs.</p>	04-16-2018
American Diabetes Association	<p>Innovative Clinical or Translational Science</p> <p>These awards support research with novel and innovative hypotheses, performed in human subjects, or research approaches to accelerate the transition of scientific discoveries into clinical application. Studies supported with these awards must directly involve human subjects, human samples and/or data, and offer considerable promise for advancing the cure, prevention or treatment of diabetes. Applications proposing high-risk projects with the potential for high-impact results are encouraged, as are studies that may not be sufficiently developed for traditional funding sources.</p> <p>Awards provide up to \$200,000 per year for up to three years, including indirect costs.</p>	04-16-2018
American Diabetes Association	<p>Junior Faculty Development</p> <p>These awards support early investigators as they establish independence as diabetes researchers.</p> <p>Awards are up to \$138,000 per year for up to four years including indirect costs.</p>	04-16-2018
American Diabetes Association	<p>Minority Postdoctoral Fellowship</p> <p>These fellowships are available to minority postdoctoral researchers (MD, MD/PhD, PhD, DVM, or equivalent) who are underrepresented in biomedical research. Fellowships provide support for high quality training in disciplines and topics relevant to diabetes, in an environment conducive to beginning a career in diabetes research.</p> <p>Awards are between \$47,484-\$55,581/year for up to 3 years, plus yearly \$5,000 training and \$5,000 fringe benefit allowances.</p>	04-16-2018
American Diabetes Association	<p>Postdoctoral Fellowship</p> <p>These fellowships are available to postdoctoral researchers (MD, MD/PhD, PhD, DVM, or equivalent) to provide support for high quality training in disciplines and topics relevant to diabetes, in an environment conducive to beginning a career in diabetes research.</p> <p>Awards are between \$47,484-\$55,581/year for up to 3 years, plus yearly \$5,000 training and \$5,000 fringe benefit allowances.</p>	04-16-2018
Collins Medical Trust	<p>Research Grants</p> <p>The Original Trust document states that monies from the Trust shall be used:</p>	04-30-2018

Sponsor	Title and Description	Deadline
	<p>“To aid, further, promote, develop, encourage and sponsor research, experiment and work in the cause, cure and treatment of human disease or in any field of medical research, and To aid, further and promote medical education.”</p> <p>Preference is given to projects or proposals where the researcher/investigator is newly embarking on their research career and is clearly supported by their respective mentor(s).</p>	
Elsa U. Pardee Foundation	<p>Cancer Research Projects</p> <p>The Elsa U. Pardee Foundation funds research to investigators in United States non-profit institutions proposing research directed toward identifying new treatments or cures for cancer. The Foundation particularly encourages grant applications for a one year period which will allow establishment of capabilities of new cancer researchers, or new cancer approaches by established cancer researchers.</p> <p>Project relevance to cancer detection, treatment, or cure should be clearly identified. By design, there are no limits set on the grant amount that can be requested. It must be reasonably and clearly supported by the scope of the project outlined in the application. Applications requesting more than 15% overhead are usually not considered.</p>	04-30-2018
Alternatives Research & Development Foundation	<p>Research on Non-Animal Lab Testing</p> <p>The mission of the Alternatives Research & Development Foundation is to fund and promote the development, validation, and adoption of non-animal methods in biomedical research, product testing, and education.</p> <p>To advance this mission, the foundation is soliciting proposals for its Annual Open Grant Program, which supports research projects aimed at developing methods to replace or reduce the use of animals in science.</p> <p>Expert reviewers will evaluate proposals based on scientific merit and feasibility, as well as the potential to reduce or replace the use of animals in science in the near future. Proposals are considered in the areas of research, testing, and/or education.</p> <p>Grants of up to \$40,000 will be awarded for research related to alternatives to the use of laboratory animals in research, testing, and education.</p>	05-01-2018
Giles W. and Elise G. Mead Foundation	<p>Grants</p> <p>The Mead Foundation supports organizations dedicated to preserving and improving the environment, the advancement of medical science, and other important social needs. Environmental organizations supported by the Mead Foundation generally have as their primary emphasis: forestry, fisheries and the sustainable use of natural resources in Western North America.</p> <p>Scientific and medical organizations supported by the Mead Foundation are generally limited to grant proposals initiated by individual Board members.</p>	05-01-2018 (LOI)

Sponsor	Title and Description	Deadline
	<p>The Foundation Board generally meets in May and October. In order for a proposal to be considered at a particular meeting, inquiries should be initiated about five months prior to the meeting date.</p>	
The Lalor Foundation	<p>The Anna Lalor Burdick Program The Anna Lalor Burdick (ALB) Program supports programs that offer sexual and reproductive health education to young women. It is interested in programs serving young women who are disadvantaged by poverty, discrimination, geographic isolation, lack of comprehensive sex education, hostile public policy, or other factors leading to inadequate sexual and reproductive health. The ALB Program is particularly interested in supporting new programs or initiatives, or innovations in successful programs.</p> <p>The ALB Program awards a small number of grants in the range of \$10,000 to \$35,000, with an average grant size between \$15,000 and \$25,000. The ALB Program typically does not support general operations, ongoing programs, or existing staff positions.</p> <p>We ask that organizations submit only one concept paper per round of funding.</p>	05-01-2018 (Concept paper)
National Multiple Sclerosis Society	<p>Career Transition Fellowships Finding a way to stop MS, restore function and end MS forever will require a cadre of well-trained scientists engaged in MS-related research. The Society's Career Transition Fellowship addresses this need by fostering the development and productivity of young scientists who have potential to make significant contributions to MS research and help ensure the future and stability of MS research. The Career Transition Fellowship targets current postdoctoral trainees who demonstrate both commitment and exceptional potential to conduct MS-related research. The award provides approximately \$550,000 over five years to support a two-year period of advanced postdoctoral training in MS research and the first three years of research support in a new faculty appointment.</p>	05-09-2018 (Preliminary application)
Genentech	<p>Fellowships Fellowships are for grants to independent professional organizations, independent charitable organizations, or other eligible institutions, where the funds are used to support advanced study by clinical and research professionals at an accredited university or teaching institution.</p>	At least 60 days prior to the project/program start date
Genentech	<p>Healthcare-Related Charitable Support These support requests are healthcare-related and are consistent with a therapeutic area in which Genentech or Roche is active. Genentech prioritizes and focuses funding towards programs and events such as: Patient Services, Patient Outreach, Patient Education, Disease Education, Fundraisers, Health screenings, Scientific/Medical Meetings, Conferences, Seminars and Symposia.</p>	At least 60 days prior to the project/program start date
Genentech	<p>Independent Medical Education Genentech/Roche supports grants for independent medical education in an effort to further the advance of medicine and healthcare by improving the knowledge of the medical community. Independent Medical Education (IME) is generally defined as education for healthcare professionals (HCPs) provided by an independent educational provider, such as a community hospital, academic center, society/association or medical education & communication company.</p>	At least 60 days prior to the project/program start date

Sponsor	Title and Description	Deadline
Genentech	<p>Philanthropic Charitable Support</p> <p>Philanthropic Charitable Support is focused on humanitarian & social programs, science & education or community & environment. These requests are not healthcare-related.</p> <p>Support is directed towards the communities in which Genentech operates (Washington County).</p>	At least 60 days prior to the project/program start date
National Organization for Rare Disorders	<p>Malonic Aciduria Research</p> <p>NORD, with funding from The Hope Fund, is accepting applications for a total of \$50,000, for scientific and/or clinical research studies related to malonyl-CoA decarboxylase deficiency, a rare metabolic condition that prevents the body from converting certain fats to energy. The signs and symptoms of this disorder are variable, but may include delayed development in childhood, hypotonia, seizures, diarrhea, vomiting, metabolic acidosis, hypoglycemia, ketosis, abnormal urinary compounds, lactic acidemia and hypertrophic cardiomyopathy. This condition is caused by mutations in the malonyl-CoA decarboxylase gene (MLYCD) gene, and is inherited as an autosomal recessive trait. The MCD enzyme is involved in the degradation of malonyl-CoA and it appears that inhibition of fatty acid synthesis as a result of malonyl-CoA accumulation is responsible for at least some of the clinical manifestations of the disorder. This condition is known as malonic aciduria, malonic acidemia, malonyl-coenzyme A decarboxylase deficiency, and MCD deficiency.</p>	Rolling
Smith Richardson Foundation	<p>Domestic Public Policy Program</p> <p>The mission of the Smith Richardson Foundation is to contribute to important public debates and to address serious public policy challenges facing the United States, with the goal of helping to ensure the vitality of our social, economic, and governmental institutions. The foundation also seeks to assist with the development of effective policies that promote our ability to compete internationally and to advance U.S. interests and values abroad.</p> <p>The foundation's Domestic Public Policy Program supports projects that aim to help the public and policy makers understand and address critical challenges facing the United States. To that end, grants will be awarded in support of research on and the evaluation of existing public policies and programs, as well as projects that inject new ideas into public debates. In previous years, grant amounts have ranged between \$25,000 and \$104,000.</p>	Rolling (Concept Paper)
Thrasher Research Fund	<p>E.W. "Al" Thrasher Award</p> <p>Ideal applications for the E.W. "Al" Thrasher Award address significant health problems that affect children in large numbers and offer the potential for practical solutions to these problems. Such solutions should be innovative and have the potential for broad applicability with low financial and/or technical barriers to implementation. Hypothesis-driven research is preferred over exploratory, hypothesis-generating research. Projects with a shorter distance to clinical applicability are given priority.</p> <p>Principal Investigators must be qualified in terms of education and experience to conduct research. A doctoral-level degree is required. This award has a duration of up to three years and the median award amount is \$320,000.</p>	Rolling (Concept Paper)

Office of Foundation Services

The Office of Foundation Services assists OSU faculty and staff in successfully writing grant proposals to private foundations, with the goal of building strong, ongoing relationships with a broad array of private funders.

Services	Examples
Prospect Research	<ul style="list-style-type: none">• Research private foundations to address specific university and faculty interests
Foundation Relations	<ul style="list-style-type: none">• Liaise with individual foundations, including attending training, obtaining technical information, and providing stewardship
Training	<ul style="list-style-type: none">• Grant Process 101 – a primer on working with Foundation Services• Grant Proposal Development 101 – a primer on grant writing and proposal development for private foundations• New faculty training
Reporting	<ul style="list-style-type: none">• Report coordination and submission
Editing	<ul style="list-style-type: none">• Editorial services, including copyediting, content editing, and developmental editing
