Oregon State University’s R/V Trophy

Specifications:
- 2005 Bayliner Trophy 1902WA
- Fiberglass Hull 19’ 01” x 8’ 0”
- 55 US gal petrol fuel tank
- 2005 115hp Mercury EFI 4-stroke outboard engine
- Low transom with swim ladder
- Raw water wash-down system

Features:
- Capacity 7 persons or 1155 lbs.
- Windshield with soft dry cabin canopy option
- Electronic bottom profiler
- Lowrance HDS-10 GPS
- 12v charger plugins
- 4v USB charging plugins
- Open deck space
- Double axel trailer
- Forward berthing area for dry storage

Operational Limits:
- < 5’ combined seas
- < 10kt winds
- < 20 mile range

Costs: Day rate + travel
- $TBD / day Internal
- $TBD / day External

About the Boat:
The R/V Trophy is a 19’ fiberglass nearshore research and training vessel recently donated to the OSU Boating Safety Program. The vessel is effective in the estuaries, inland and near coastal waters of Oregon. The vessel is capable of supporting diving operations as well as deploying and recovering small oceanographic equipment.

Project Highlights:
The R/V Trophy is used as a training vessel for the Motorboat Operator Training Course (MOTC) which is taught every year in Astoria and Newport, OR. In this three day intensive certification course boaters from all different backgrounds and experience levels learn the basics of small boat operation. The MOTC credential is nationally recognized by most major government agencies and serves as the minimum standard of training for all OSU research vessel operators. If you or someone you know is interested in taking the MOTC course please contact the OSU Small Boat Program for upcoming training dates.

Our Mission:
The R/V Trophy is currently maintained and operated by the Oregon State University Research Office - Small Boat Program. Our goal is to provide safe, reliable and readily available access to the sea for OSU researchers and research collaborators.

Contact Info:
For Inquiries on rates and scheduling please contact Kevin Buch or Taylor Eaton.
